

Assure A Smile Offers Special on Bio-compatible Dental Implants

Source: Assure A Smile

Dated: Jun. 04, 2014

For a limited time, Assure A Smile offers a special promotion on bio-compatible dental implants for patients in the Miami area.

MIAMI -- Miami dental practice Assure A Smile announces a special on all bio-compatible dental implants to spread awareness for the fact that loose, missing, or severely damaged teeth are much more than just an aesthetic issue. For a limited time, Assure A Smile is offering dental implants starting at just \$1,895.

Loose, missing, or severely damaged teeth can cause a variety of physical and mental changes that ultimately affect long term patient health. From the perspective of physical health, a missing tooth leaves behind an empty space that is often filled by surrounding teeth, causing misalignment. As a result, misalignment increases the risk of developing tooth decay, gum disease, chipped/cracked teeth, TMJ, and associated muscle aches.

In addition to a broad range of adverse physical side effects, misalignment of teeth can also cause mental health issues. Most notable are fear, anxiety, and sometimes depression. These mental side effects stem from the insecurity one tends to feel when teeth are misaligned and thus perceived as unattractive. Feelings of stress and tension are also common, as misaligned teeth rest unnaturally against one another, which may cause the patient to unconsciously bite and clench their teeth throughout the day.

Bio-compatible dental implants restore the jaw to its fullest function and best aesthetic appeal while minimizing exposure to toxic elements. Holistic dental professionals use bio-compatible materials, like dental implants, because they are known to have little to no reaction with the human body. As a result, the patient experiences fuller health and longevity following the procedure.
